

Successful participation in VÖV General Assembly

Appenzell / Bronschhofen, September 2019

ATRON-Systems AG draws a positive balance to the participation in the VÖV General Assembly and the accompanying exhibition.

Once again ATRON was one of the main sponsors of the VÖV General Assembly, which took place in Appenzell from 5 to 6 September. In addition, ATRON Systems AG was represented with a stand at the accompanying exhibition.

Very much attention was paid to the ticket machine AFA 150, which was presented in a completely new design. In addition to the NOVA capability, the stand visitors emphasized the simple elegance of the machine. Furthermore, the multilingualism of ATRON products presented in German, English and French achieves public acclaim. Especially with interested parties and customers from French-speaking Switzerland, this resulted in numerous interesting conversations.

VÖV

The Association of Public Transport is the national holding organization of public transport companies. Its members are about 130 transport companies and around 180 companies from business and industry. Already in 1889 the VÖV was founded as an association. The VÖV General Assembly takes place every year at another transport company. The assembly including workshops and exhibitions will be attended by more than 400 industry professionals.

The ATRON Group

ATRON has been working for 40 years with integrated, open and scalable system solutions and the digitization of business processes. In the area of public transport, our aim is to increase the efficiency for the public transport companies and the comfort for the passengers in order to transport as many people as possible door-to-door in a climate-friendly way. A changing society is constantly presenting us with new and exciting challenges, which we gladly accept. That's why we work day by day on intelligent solutions for cities and regions. ATRON wants to actively contribute to obtain the world liveable for future generations. Headquarter of the ATRON Group is Markt Schwaben, with branches in Dortmund and Leipzig as well as in Bronschhofen (Switzerland), Linköping (Sweden) and Zagreb (Croatia).
