ATRON ACT 420: the compact ticket machine

From fast check-in to reliable ticket control and 'as-needed' vending, the new ATRON ACT 420 (pictured) meets all the requirements of modern eTicketing. This compact machine can be used as a customer-operated vending machine, or as a terminal for assisted sales at customer service points. Its ergonomic design, large high-resolution display, and intuitive menu navigation also makes it an efficient and passenger-friendly

solution for in-vehicle use – whether for ticketed entry or as an information terminal.

The benefits of the new ATRON ACT 420 include:

- Fast ticket control
- Excellent 2D barcode scanner
- Simple check-in/check-out
- Cashless ticket sales
- ID-based ticketing
- Intuitive infoscreen.
