ATRON is focussing on the future at IT-TRANS 2016

ATRON offers the full range of services for public transport: from sales and operations to managed services. All integrated system solutions are delivered ready-to-use and from one source. With modern turn-key solutions, ATRON is present in many European markets, for example in Germany, Switzerland and Sweden. The goal of ATRON is to make projects more efficient and sustainable – the basis for satisfied passengers and optimised operations.

Visit us at IT-TRANS 2016 on Booth E3 in Hall 1
